TECHNICAL SPECIFICATIONS

(1 shoe in size 42)

(same size)

SOLE

SOLE FEATURES

FOOTBED

The PU COMB® sole, entirely crafted from polyurethane foam, offers lightness, elasticity, and comfort. Its honeycomb tread provides suction cup grip, superior slip-resistance, and self-cleaning features.

PROTECTIVE ELEMENTS

Heat-treated and epoxy-coated safety toe cap withstands impacts up to 200 Joules and compressions up to 15 kN. Stainless steel fibers increase durability and beveled edges enhance comfort.

STEEL

Hypoallergenic microfiber with high breathability, tear, rip, scratch, and friction resistance, plus water-repellent and stain-resistant

MICROFIBRE

UPPER

LINING

Made from durable multi-layer fabric, this lining offers excellent breathability and moisture wicking. It features SANITIZED* tre atment to suppress microorganism growth and prevent odours.

SANITIZED®

removable insole with SANITIZED® technology ensuring hygiene and a fresh feeling all day.

INDUSTRIES

STORAGE, CARE AND MAINTENANCE

- PANDA SAFETY footwear should be stored in original packaging, storage temperature should not exceed 35°C, humidity should be less than 80% and without the influence of direct sunlight.
- Sandals, shoes and boots should be cleaned after each use; dry off the shoes, not in proximity to or in direct contact with stoves or other sources of heat.
 Carry out the periodic treatment of the uppers with suitable products containing wax, grease, silicone, etc.
- Avoid contact with aggressive chemicals and extreme temperatures.
- Verify the good state before each use.
