### STORAGE, CARE AND MAINTENANCE

• PANDA SAFETY footwear should be stored in original packaging, storage temperature should not exceed 35°C, humidity should be less than 80% and without the influence of direct sunlight.

• Sandals, shoes and boots should be cleaned after each use; dry off the shoes, not in proximity to or in direct contact with stoves or other sources of heat.

•Carry out the periodic treatment of the uppers with suitable products containing wax, grease, silicone, etc. •Avoid contact with aggressive chemicals and extreme temperatures.

• Verify the good state before each use.
